PROFESSIONAL SUMMARY

BSCS graduate with 1+ year of hands-on full-stack development experience building and deploying web applications using PHP, MySQL, HTML5/CSS3/JS, and modern tools. Specializes in backend architecture, database normalization, and secure API integration. Built projects from scratch-designing schemas, writing optimized queries, and deploying to production environments. Passionate about writing clean, maintainable code and implementing security best practices. Actively looking for a Full Stack Internship or Junior Dev or Backend Developer role where I can apply my development skills, learn from experienced engineers, and contribute to real-world software products.

TECHNICAL SKILLS

Core: PHP, JavaScript, HTML5, CSS3, Nodejs, Ajax, C++ , Python (Basic)
Backend: PHP, MySQL, REST API Design & Integration, OAuth , Email Automation
Frontend: HTML5, CSS3, JavaScript, Responsive Web Design
Databases: MySQL (Professional), MongoDB (Basic), SQL , Supabase (Intermeediate)
Tools: Git, GitHub, VS Code, XAMMP, cpanel, npm, Heroku, Render, Vercel, Android Studio
AI Dev Tools: Gemini, DeepSeek, MetaAI, Claude Code, Cursor, GitHub Copilot, Qween
Additional: Automation Scripting (WhatsApp/Web Bots), SEO, Adobe Illustrator, MS Office

PROFESSIONAL EXPERIENCE

- Full-Stack Web Development** | Freelance Projects May 2025 – Present
- Built 8+ complete web applications using PHP, MySQL, and JavaScript
 - Created responsive, user-friendly interfaces with HTML5, CSS3, and JavaScript
 - Deployed projects on Cpanel, Heroku, Render, and Vercel with custom & sub domains
 - Wrote clean, documented, and maintainable code following best practices
- Computer Operations** | UK-Based Company (Remote) April 2024 – March 2025
- Processed data and managed day-to-day computer operations
 - Created reports and maintained records in MS Excel
 - Ensured smooth workflow and communication with UK-based management
- Graphic Design & Multimedia** | Freelance February 2023 – March 2024
- Designed UI/UX for mobile apps and websites with focus on user-centered design and responsive interfaces
 - Developed posters, YouTube thumbnails, social media graphics, and marketing materials
 - Produced whiteboard animations and explainer videos for digital content (Basic)
 - Used Adobe Illustrator for all design work
 - Managed end-to-end client communication from concept to final delivery

KEY PROJECTS

AssignmentWorkZone | Client Project – Assignment Management Platform

PHP | MySQL | HTML5 | CSS3 | JavaScript | AJAX | In Development

assignmentworkzone.com

Building a custom assignment management platform for a client with upload, categorization, cross-university sharing, and submission withdrawal features
Implementing role-based access, submission tracking, and client-requested customizations

Past Papers | Exam Resource Library & Search Platform

PHP | MySQL | HTML5 | CSS3 | JavaScript | AJAX | Google Custom Search API

papers.uniplus.click

Built a past papers repository with 5+ years of GCUF and UOS exam papers and Google image search integration

Enabled student contributions through upload functionality with smart search/filter by university, subject, and year

Developed with PHP/MySQL backend and AJAX for seamless user experience

Uniplus | Academic Social Networking Platform

PHP | MySQL | JavaScript (AJAX) | HTML5 | CSS3 | Android Studio (XML, JAVA)

uniplus.click

Built a Facebook-style academic social platform for Pakistani university students to connect, share notes/past papers, and build academic networks

Implemented user profiles, friend connections, resource sharing, and search across universities/departments

Developed with PHP/MySQL backend and AJAX for seamless real-time interactions

School Management System (MaraSchool) | Full-Stack Education Platform (FYP)

PHP | MySQL | JavaScript (AJAX) | HTML5 | CSS3 | Android Studio (WebView)

maraschool.free.nf

Built a education platform with role-based portals (Student, Parent, Teacher, Admin) for attendance, grades, and fee management

Developed with PHP/MySQL backend, AJAX for smooth UI updates, and Android WebView app for mobile access

Implemented secure session handling and responsive dashboards for all user roles

Age Calculator | Date & Time Computation Tool

JavaScript | HTML5 | CSS3 | Vercel

calculate-age.vercel.app

Built a web tool calculating precise age in years, months, days, weeks, hours, minutes, and seconds from birth date

Implemented date difference logic with month/day carry-over and REST API endpoint for programmatic access

Deployed as a responsive single-page application on Vercel

Hide Message in Emoji | Steganography-Inspired Messaging Tool

JavaScript | HTML5 | CSS3 | Vercel

hide-msg-in-emoji.vercel.app

Built a web tool using zero-width Unicode characters to hide messages inside emojis with real-time encoding, one-click copy, and clipboard API integration

Deployed on Vercel with responsive UI and API documentation for developer integration

EDUCATION

BS Computer Science (BSCS) | Heritage College of Science, Narowal (GCUF) | 2022-2026

Intermediate in Computer Science (ICS) | Board of Intermediate & Secondary Education, Gujranwala | 2020-2022

CERTIFICATIONS & TRAINING

Developer / Operator (PHP, MySQL, MS Office) | Climax Digital Marketing Agency, Narowal | 2025

Responsive Web Design | Youtube / freeCodeCamp | 2023

Graphics Designing | Azadchailwalainstitute / AhsasLab | 2022
